

# SEMEN SIRE

## Challara 150268

Born early May ET-bred

## Challara 150245

Born early May ET-bred

A long bodied, white, deep and bold crimping wool with good natural worm resistance. A dual purpose sheep that has the potential to impact ewe flocks.

**Sire: Karbullah 120165 (PP) Sire of Sire: Karbullah 090399**

A well balanced frame ram with strong natural worm resistance and carcass figures. It has been DNA tested with a double poll gene.

**Dam: Challara 100263 Sire of Dam: Calcaling 080001**

Classed as a top stud wool with good frame. It was used in ET programs from 2012-2015. Has 90mm of wool length with good density for 6 months growth and still going strong as a six and a half year old.
